

# Avansia

Avansia is a Retransfer technology card printer for very high quality card delivery.

Designed for rigorous use, Avansia is extremely robust and provides high security card issuance.

Capable of issuing more than 140 single-sided color cards per hour, it is ideal for card issuance in medium and large quantities.

## THE PREMIUM RETRANSFER PRINTER FOR HIGH DEFINITION CARDS

Avansia is ideal for delivering:

- Corporate ID cards
- Secure access badges
- Student cards
- Payment cards
- Loyalty cards / gift cards
- National ID cards
- Driver's licenses

### HOW DOES RETRANSFER TECHNOLOGY WORK?

The card is printed in two phases:

- 1 The card design is printed by dye sublimation on a transparent film.
- 2 The printed film is then fused to the card using a thermal bonding process for flawless results.

The built-in flattener applies pressure on the card, thus ensuring a perfectly flat surface.

### FLAWLESS PRINTING

Retransfer technology (Reverse Transfer) maximizes print quality:

- **High resolution 600 dpi:** images and text are rendered perfectly and micro-text and watermarks are printed in high definition.
- **Over the edge printing:** this printer will guarantee that your edges print perfectly since the film fully covers the card.
- **Evolis High Trust® consumables:** their use provides flawless results.

### MEDIA COMPATIBILITY

The Avansia Retransfer technology can print on **all types of cards** (PVC, PET, polycarbonate, ABS), including uneven card surfaces, such as smart contact and contactless cards.

The **standard built-in card flattener** delivers perfect results.

### MULTIPLE ENCODING OPTIONS

To meet your specific needs, Avansia can be configured for **all types of data encoding options:** magnetic stripe, contact and contactless smart cards. These factory-configured encoding options **can be combined**.

### INCREASED PRODUCTIVITY

Avansia is **exceptionally fast** with an output of more than **140 single-sided color cards per hour**.

Thanks to the high capacity feed tray and output tray (250 cards each) - and high capacity consumables (500 prints per roll), you can print your card runs with **no interruptions**.

### MAXIMUM ENDURANCE

Designed to issue cards intensively, Avansia is **robust and reliable**. Its **3-year standard warranty** and **life time warranty** on the print head guarantee your long-term investment.

Avansia can operate in **critical environments** (dust, heat...) thanks to its airtight structure.

### ENHANCED SECURITY

Avansia can be easily locked by removing the RFID electronic key. This quite simply **prevents any attempt** to use the printer.

A **mechanical key lock**, available as an option, prevents access to consumables.

Moreover, Avansia comes with a **security slot** (Kensington® type).
